### **Riverside Police Department Receives Traffic Education and Enforcement Grant**

Riverside Police Department has been awarded a \$505,000.00 grant from the California Office of Traffic Safety (OTS) for a year-long enforcement and public awareness program. The traffic safety program is intended to educate the public on safe roadway habits and deter people from violating traffic laws or practicing other unsafe behaviors that lead to injuries and fatalities.

“Thanks to the 2018-2019 California Office of Traffic Safety Grant, the Riverside Police Department will have the ability to increase educational and enforcement efforts to address many of the causes of injury causing traffic collisions. Far too often, traffic collisions that result in injury could have been prevented. The Riverside Police Department is appreciative of the Office of Traffic Safety's continued support to help keep our roadways safe for our community,” said Sergeant Eric Detmer.

The grant from OTS will fund various education and enforcement activities for the 2019 federal fiscal year (Oct. 1, 2018 to Sept. 30, 2019):

- DUI checkpoints and saturation patrols to take suspected alcohol/drug-impaired drivers – and those unlicensed or with a revoked/suspended license – off the road.
- Traffic safety education presentations for youth and community members on distracted, impaired and teen driving, and bicycle/pedestrian safety.
- Patrols at intersections with increased incidents of pedestrian and bike collisions.
- Checking for seat belt and child safety seat compliance.
- Motorcycle safety operations in areas with high rider volume and where higher rate of motorcycle crashes occur.
- Speeding, red light and stop sign enforcement.
- Compilation of DUI “Hot Sheets” identifying repeat DUI offenders
- Specialized DUI and drugged driving training to identify and apprehend suspected impaired drivers.

In 2016, 3,623 people were killed in crashes across the state, a 7 percent increase from 2015, according to the National Highway Traffic Safety Administration. Particularly alarming is the rise in pedestrian deaths, with 867 pedestrians killed on California roadways in 2016, a nearly 33 percent increase from 2012. Along with the growing dangers of distracting technologies like phones and drug-impaired driving, this grant funding will provide opportunities to combat these dangerous and illegal behaviors.

# Riverside DUI Enforcement PRESS RELEASE

“Almost all crashes are preventable,” OTS director Rhonda Craft said. “Education and enforcement go hand in hand helping change behaviors that cause devastating crashes.”

Funding for this program is provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
