Please invite your retirees & active members to learn about the benefits available to all responders who were exposed to the Pentagon toxic fumes on 9/11, or during the days that followed.

They will answer your questions and, if you want, register you in the the free 9/11 Health Program. If you are certified by the health program with a 9/11 illness, you are entitled to a tax-free award from the Victim Compensation Fund.

The Federal Government lied about the air quality of the jet fuel, the fires, and the building carcinogens; there are presumptions linking 68 Cancers and many pulmonary illnesses to the toxins.

Please notify your retirees and join us to learn your rights
